Indy Firm Launches "Indiana Green Pages"

InsideINdianaBusiness.com Report

Emerald Healthy Environments LLC of Indianapolis has launched a new directory of “green” for profit and not-for-profit businesses in the state. The Indiana Green Pages will be available online and as printed directories. The company says the goal is to help Hoosiers find products and services that are health conscious, socially responsible and safe for the environment. The directory is available at www.myhomegreenpages.com.

Press Release

Indianapolis, Ind. -- Emerald Healthy Environments LLC of Indianapolis launched www.myhomegreenpages.com - consumer web site and first complete directory of “green” businesses in Indiana. Indiana Green Pages is a statewide community effort to help Hoosiers find products and services that are health conscious, socially responsible and safe for the environment. This initiative fosters development of green for profit and not-for-profit organizations in the state.

Indiana Green Pages online directory (www.myhomegreenpages.com) is the most comprehensive source of information relating to eco friendly products and services in Alternative medicine; Health food; Organic Farms; Fitness; Sporting Goods; Pet services; Landscaping; Green Construction; Recycling, Environmental services; Used goods stores; just to mention a few.

Myhomegreenpages.com is the place for consumers to obtain hard to find information about green products and services in their hometowns. Via this site, Hoosiers can read and write free product reviews and interact with local green business owners.

Business owners can submit a free listing by visiting www.myhomegreenpages.com or calling 1-888-851-9048
